EXPERIENCE

Costume CAM Specialist 2

May 2016 - Present

Create, verify, and approve precise technical specs, line drawings, and construction guidelines for Disney character garments, ensuring identical character presence across the parks, ships, and all global stages.

Consistent collaboration with Customer Relations to problem-solve garment issues for better fit, function, and performance for all Cast Members.

Designed Excel interfaces and forms for Disney Live Entertainment to streamline orders, construction, and resources for maximum efficiency and minimum waste.

Costumer for Star Wars

September 2015 - May 2016

Sourced and documented all costumes and components for the performing cast.

Coordinated with domestic and international vendors to create stunning yet safe costumes, approved by the show director, designer, cast, and Lucasfilm.

Managed show finances and budgets by placing orders and reporting through SAP.

Production Support/Professional Intern

July 2014 - September 2015

Helped open: Frozen Sing-a-Long, Project 25, Rivers of Light, Star Wars Launch Bay Super Fans, and the new Creative Costuming Building.

Worked with Disney Cruise Line documenting the Tangled costumes.

Assumed a leadership role in creating Rivers of Light, digitizing all pattern pieces for the four intricate costumed looks.

PROJECTS

Gym Buddy

A mobile-first design with a stylish, intuitive barbell calculator and rest timer to maximize safe and effective workouts.

<https://vfrtist.github.io/GymBuddy/>

Jeopardy

A class-based quiz game for two. Easy to pick up without instruction, and programmatically built, emulating a database-style setup.

https://vfrtist.github.io/vince_jeopardy/

MySQL Writing Utility

Writing SQL in Python is complex; this makes it simple. Convert MySQL tables into more useful Python objects.
